BIJIE NETWORKS
Wireless Multi-Screens Collaboration

Wireless Presentation, Seamless Collaboration

B60S Wireless Presentation Box

As an enterprise-level wireless presentation box, BJ60S allows the participants to mirror their screens to a monitor/TV simultaneously through Airplay, Miracast, WiDi, GoogleCast, BJCast APP and BJCast USB Transmitter. BJ60S has easy deployment, vivid content sharing and effective collaboration features, which can facilitate local collaboration with traditional meeting rooms and improve productivity. With compact design, built-in 802.11AC*2 dual Wi-Fi module, 2.4G+5G dual-band wireless connection and AP Wi-Fi mode, BJ60S is the ideal wireless presentation solution for small & medium-sized meeting room and training room/classroom.

Google Cast	Miracast	Airplay	WiDi	AP hotspot
BJCast USB Transmitter	2-Screen casting	4K HD display	2.4G+5G	Remote Device Management

Application Scenarios

Meeting Room

Training room/Classroom

Product Features

•Multiple Method, Better Compatibility
Perfectly compatible with Windows, Mac, iOS, Android and other operating systems, no need to install any other APP or software to cast. It allows the participants to cast screens wirelessly via Miracast, Airplay, Google Cast, WiDi and BJCast USB Transmitter, to provide wireless presentation and interactive collaboration experience. Simple and easy to operate, which can improve meeting and study efficiency.

•Superior Collaboration ,Higher Efficiency
Support casting maximum 2 screens to one Monitor/TV simultaneously, with 4K/60FPS video codec solutions, to provide fluent and vivid content, no need to switch any interface and device. BJ60S also support reverse control via wireless casting, including Miracast and BJCast APP, to make meeting and work easy and efficient.

•Convenient and Reliable
Compact design, easy to deploy, less cable and DC power supply help to maintain a clean and organized meeting room. It also supports integration and interconnection with third-party software system. Meanwhile, the Administrator could manage and diagnose BJ60S remotely on BJCast Remote Device Management Platform.

BJ60S Wireless Presentation Box Specification

Item	Description
OS	•Android
Wi-Fi module	•802.11AC∗2 module
Wi-Fi AP	•AP hotspot
Wi-Fi antenna	•Built-in Wi-Fi antenna
Network	•Wired, Wireless, 802.1x
Wireless Casting/Screen Mirroring Method	•Airplay •Miracast •GoogleCast •WiDi (Windows8/10) •BJCast(Windows,Mac, Android,iOS)
Extended Desktop	•Windows, Mac •BJCast USB Transmitter
Reverse Control	•BJCast •BJCast USB Transmitter •Miracast •WiDi
Sources Simultaneous on Screen	•2
Casting method	•QR code •PIN code
Response Time	•Time Latency≤200ms •Casting Range≤30m •Boot time＜30s
Security Protection	•Miracast compatible PIN code •PIN code to encrypt contents and unwanted stream
Manual Setting	•Device name •Wallpaper
Device Management	•BJCast Unified Management Platform
SDK	•Wireless Casting SDK can be provided (Optional) •Integrate with thirty party applications (Optional)
Interface	•HDMI-out∗1 •3.5mm audio out∗1 •USB3.0∗1 •USB2.0∗1 •Reset ∗1 •Power ∗1 •White LED indicator∗1
Power Supply	•DC5V2A
Dimensions	•Size:127∗97∗20mm •Weight: 270g
Warranty	•One year

About BJCAST

BJCAST, belongs to BiJie Networks, is a global brand and high tech & leading innovation enterprise that specialized in integrated communication technology development and cloud computing application service. BJCAST has been devoting to helping end users to improve learning and communication efficiency, to make interaction and collaboration easier with wireless presentation/screen mirroring technology and intelligent hardware products.
